TECHNICAL PROJECTS

HASHCODE CHALLENGES APP | GITHUB

February 2021 | Google DSC ISI

- This was a gift from Google DSC ISI to all HashCode participants.
- The app brings coding problems to help people prepare for the HashCode contest.
- Check out the open-source project on my Github!

STOP COVID TUNISIA | GITHUB

November 2020 – January 2021 | Tunis, Tunisia

- I made this app as a personal challenge to learn Flutter in 30 days.
- I finished all the backend in an incredible 31 days with no previous experience with Flutter.
- It unfortunately failed due to system limitations. It was an amazing experience that taught me a lot.

AUTOMATIC YOUTUBE TO MP3 CONVERTER | GITHUB

September 2020 | Tunis, TU

- I used Python and Selenium to make this web scraping project.
- Using it is as simple as cloning the repo, running the Python file and typing the Youtube URL you want to convert.
- This project is available as open source on my Github account.

VOLUNTEERING & CLUBS

GOOGLE DSC ISI | MOBILE DEVELOPMENT PROGRAM HEAD | FLUTTER INSTRUCTOR

November 2020 - Present | ISI Ariana, TU

- I taught Flutter to over 300 people across club members and workshop participants.
- Led a team of Future Flutter developers and guided them in their first steps with Flutter.
- Made a mobile app that helped Google Hash Code participants to practice challenges and problems. Check out the code here and download it from here

IEEE ISI | MEMBER

December 2020 - Present | ISI Ariana, TU

- I got to learn a lot about tech through the huge IEEE community.
- Due to COVID IEEE ISI have not been active that much in 2020.

SPARK CLUB SMU | MEMBER

December 2018 - June 2019 | MSB, TU

- I helped develop the idea of a crowdfunding website that aims to help Tunisian creators and entrepreneurs bring their ideas to life and get through the financial struggles.
- My team and I won the 2nd prize in the national competition for this idea, we also represented Spark Club SMU in the national competition.
